Federspiel N., Hyman R., Kalman S., Komp C., Kurdi O., Lew

Namath A., Oefner P., Roberts D., Schramm S., Davis R.W.;

Submitted (NOV-1996) to the EMBL/GenBank/DDBJ databases.

-!- PATHWAY: 3-hydroxyphenylpropionate degradation.

-!- SIMILARITY: STRONG, TO B.CEPACIA AND PSEUDOMONAS BPHD.
                                                                                                                                                                                                                                                                                                                                                                                                MHPC_ECOLI STANDARD; PRT; 293 AA.
